Feel the weight of a heavy tank!  
That's **25.35 LB (11.5 kg)** of bricks!

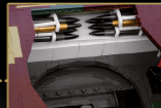

**SCALE**  
**1:12**

## Take on the challenge and build the largest and most detailed tank model made with COBI construction bricks!

The detailed engine model is made of 550 bricks! Place the engine inside the tank or display it on the included stand with a nameplate!

We even built the positions for all five crew members!

Access to the interior with accurately recreate equipment and various types of ammunition.

Fans, hatches, and a dedicated spot for the engine model!

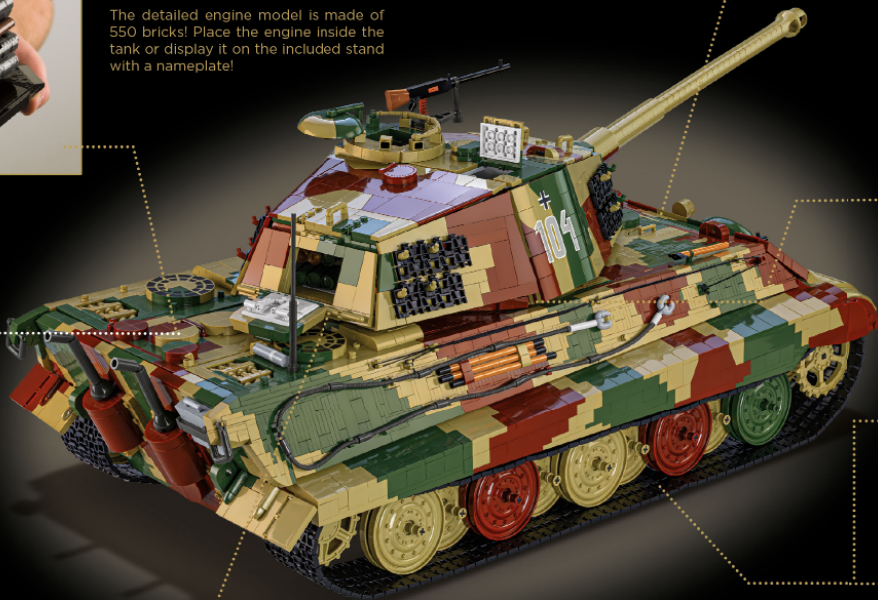

Rotating wheels and tracks made of individual links!

Removable turret with interior details.

Suspension based on springs and reinforced axles made of ABS and fiberglass.

A detailed LEGO Technic model of the German battleship Bismarck is shown sailing on a blue sea under a cloudy sky. The ship has a red hull, a black upper section, and a grey superstructure with various gun turrets and masts. Three green and grey biplanes, identified as Fairey Swordfish, are flying in the sky. One is prominently featured in the foreground, showing its two wings, propeller, and landing gear. Two other smaller biplanes are visible in the distance. The scene is set against a backdrop of a sunset or sunrise sky with soft, golden light.
